We have gathered all environmentally-friendlier materials to present to you

Nordsign's Go Green(er) Offer.

PVC-free vinyls and rubber band, textiles made from recycled materials, water-based coatings and many more. Now you can choose your favourite products in two versions: standard and green.

Explore the endless possibilities with Nordsign.

EXPLANATION

Inks certificates

ECO PASSPORT by OEKO-TEX®

is an independent certification system for chemicals, colourants and auxiliaries used in the textile and leather industry. During a multistep process, we analyse whether each individual ingredient in the chemical product meets the statutory requirements and that it is not harmful to human health.

OEKO-Tex

STANDARD 100 by OEKO-TEX® is one of the world's best-known labels for textiles tested for harmful substances. It stands for customer confidence and high product safety.

Green Guard Gold

The green-colored logo certifies a product has low chemical emissions. The majority of our chemical exposure happens through the air we breathe, including indoor air.

ECOLOGO®

Certified products, services and packaging are certified for reduced environmental impact. ECOLOGO Certifications are voluntary, multiattribute, life cycle-based environmental certifications that indicate a product has undergone rigorous scientific testing, exhaustive auditing or both, to prove its compliance with stringent, third-party, environmental performance standards.

REACH Compliant

Material complies with REACH (EC 1907/2006) - aims to improve the protection of human health and the environment through the better and earlier identification of the intrinsic properties of chemical substances.

ZDHC Gateway Level I

The ZDHC Manufacturing Restricted Substances List (ZDHC MRSL) is a list of chemical substances. These substances are banned from intentional use in facilities processing textile materials, leather, rubber, foam, adhesives and trim parts in textiles, apparel, and footwear.

CALIFORNIA PROPOSITION 65

Proposition 65 requires the state to maintain and update a list of chemicals known to the state to cause cancer or reproductive toxicity.

Heavy metal free

Information about the concentration of your hard work, such as: Chromium (Cr), Cadmium (Cd), Mercury (Hg) or Lead (Ld)

PRINTING INKS CERTIFICATES

The inks we use for printing also have certificates.
Depending on the configuration of the product, inks
and certificates may comply with the following list:

Sublimation print / Transfer print

Certificates available:

- REACH compliant,
 - OEKO Tex,
 - Heavy Metal Free,
 - CALIFORNIA PROPOSITION 65
-

UV print

Certificates available:

- Green Guard Gold,
 - REACH compliant
-

Latex print

Certificates available:

- ECOLOGO®,
- Green Guard Gold

EXPLANATION

Materials certificates

From Recycled Materials

The material was made using recycled materials.

PVC-Free

It does not emit noxious, chemical scents or expose the user to such dioxins as PVC.

Water-based Coatings

The coatings that cover the materials are largely water-based.

REACH Compliant

Material complies with REACH (EC 1907/2006) - aims to improve the protection of human health and the environment through the better and earlier identification of the intrinsic properties of chemical substances.

Global Recycled Standard

The GRS is an international, voluntary, full product standard that sets requirements for third-party certification of recycled content, chain of custody, social and environmental practices and chemical restrictions.

Phthalate-free

Phthalates, a family of industrial chemicals used to soften polyvinyl chloride (PVC) plastic and as solvents in cosmetics and other consumer products, can damage the liver, kidneys, lungs, and reproductive system.

Heavy Metal Free

Information about the concentration of your hard work, such as: Chromium (Cr), Cadmium (Cd), Mercury (Hg) or Lead (Ld)

OEKO-Tex

STANDARD 100 by OEKO-TEX® is one of the world's best-known labels for textiles tested for harmful substances. It stands for customer confidence and high product safety.

TEXTILES

Green Flag

Lightweight flag textile made of recycled yarns.
Perfect for indoor and outdoor use.

Weight:
110 g/m²

Material:
100% recycled polyester

PRINT:	 TRANSFER PRINTING	 DYE-SUB PRINTING	 LATEX PRINTING	 UV PRINTING	Sample print resolution: 1200dpi		
PERFECT FOR:	 BANNERS	 POP UP SYSTEMS	 FLAGS	 EXHIBITION CONSTRUCTIONS	 POSTERS	 STICKERS	 FRAME SYSTEMS
ECO:	 FROM RECYCLED MATERIALS	 PVC-FREE	 WATER-BASED COATINGS	 REACH COMPLIANT	 GRS - GLOBAL RECYCLED STANDARD	 PHTHALATE-FREE	 HEAVY METAL-FREE
PROPERTIES:	 WATER-RESISTANT WD	 DOUBLE-SIDED PRINTING	 STRETCHES IN ONE DIRECTION	 STRETCHES IN TWO DIRECTIONS	 GLUE LAYER	 BACKLIGHT	 ANTI SLIP
POPULAR FINISHING:	 CLEAN CUT	 OPEN SEAM	 IRON BAR	 VELCRO	 EVO MAX	 KEDERLIST	 EYELETS
	 FLAG TAPE + EYELETS	 RUBBER BAND	 FLAG TAPE + HOOKS	 SINGLE/DOUBLE STITCH			
CERTIFICATES:	 FIRE RETARDANT B1	 FIRE RETARDANT M1	 SOUND ABSORBING CERTIFICATE	 OEKO TEX	Due to the continued development of our offer, some information in the specification card may be subject to change. Before placing the order and production, please verify the specification with our Sales Team.		

Decotex Recycled

Elastic and resistant to creasing textile made of recycled yarns. Perfect for portable, foldaway advert systems and displays.

Weight:

220 g/m²

Material:

100% recycled polyester
