GO GREEN(ER)

Company offer

CONTENTS

We have gathered all environmentally-friendlier materials to present to you

Nordsign's Go Green(er) Offer.

PVC-free vinyls and rubber band, textiles made from recycled materials, water-based coatings and many more.
Now you can choose your favourite products in two versions: standard and green.

Explore the endless possibilities with Nordsign.

EXPLANATION
Inks certificates

ECO PASSPORT by OEKO-TEX®
is an independent certification system for chemicals, colourants and auxiliaries used in the textile and leather industry. During a multistep process, we analyse whether each individual ingredient in the chemical product meets the statutory requirements and that it is not harmful to human health.

OEKO-Tex
STANDARD 100 by OEKO-TEX® is one of the world's best-known labels for textiles tested for harmful substances. It stands for customer confidence and high product safety.

Green Guard Gold
The green-colored logo certifies a product has low chemical emissions. The majority of our chemical exposure happens through the air we breathe, including indoor air.

ECOLOGO®
Certified products, services and packaging are certified for reduced environmental impact. ECOLOGO Certifications are voluntary, multiattribute, life cycle-based environmental certifications that indicate a product has undergone rigorous scientific testing, exhaustive auditing or both, to prove its compliance with stringent, third-party, environmental performance standards.

REACH Compliant
Material complies with REACH (EC 1907/2006) - aims to improve the protection of human health and the environment through the better and earlier identification of the intrinsic properties of chemical substances.

ZDHC Gateway Level I
The ZDHC Manufacturing Restricted Substances List (ZDHC MRSL) is a list of chemical substances. These substances are banned from intentional use in facilities processing textile materials, leather, rubber, foam, adhesives and trim parts in textiles, apparel, and footwear.

CALIFORNIA PROPOSITION 65
Proposition 65 requires the state to maintain and update a list of chemicals known to the state to cause cancer or reproductive toxicity.

Heavy metal free
Information about the concentration of your hard work, such as: Chromium (Cr), Cadmium (Cd), Mercury (Hg) or Lead (Ld)

PRINTING INKS CERTIFICATES

The inks we use for printing also have certificates.
Depending on the configuration of the product, inks
and certificates may comply with the following list:

SUB DIRECT / **TRANS-FER** Sublimation print / Transfer print

Certificates available:

- REACH compliant,
- OEKO Tex,
- Heavy Metal Free,
- CALIFORNIA PROPOSITION 65

UV UV print

Certificates available:

- Green Guard Gold,
- REACH compliant

**LATEX** Latex print

Certificates available:

- ECOLOGO®,
- Green Guard Gold

Flags made with Green Flag

Pop Up Lightbox with Samba Green

EXPLANATION
Materials certificates

From Recycled Materials
The material was made using recycled materials.

PVC-Free
It does not emit noxious, chemical scents or expose the user to such dioxins as PVC.

Water-based Coatings
The coatings that cover the materials are largely water-based.

REACH Compliant
Material complies with REACH (EC 1907/2006) - aims to improve the protection of human health and the environment through the better and earlier identification of the intrinsic properties of chemical substances.

Global Recycled Standard
The GRS is an international, voluntary, full product standard that sets requirements for third-party certification of recycled content, chain of custody, social and environmental practices and chemical restrictions.

Phthalate-free
Phthalates, a family of industrial chemicals used to soften polyvinyl chloride (PVC) plastic and as solvents in cosmetics and other consumer products, can damage the liver, kidneys, lungs, and reproductive system.

Heavy Metal Free
Information about the concentration of your hard work, such as: Chromium (Cr), Cadmium (Cd), Mercury (Hg) or Lead (Ld)

OEKO-Tex
STANDARD 100 by OEKO-TEX® is one of the world's best-known labels for textiles tested for harmful substances. It stands for customer confidence and high product safety.

TEXTILES

Green Flag

Lightweight flag textile made of recycled yarns.
Perfect for indoor and outdoor use.

Weight:
110 g/m2

Material:
100% recycled polyester

PRINT:

TRANSFER PRINTING	DYE-SUB PRINTING	LATEX PRINTING	UV PRINTING

Sample print: ○   ○   ○   ○   Sample print resolution: 1200dpi

PERFECT FOR:

BANNERS	POP UP SYSTEMS	FLAGS	EXHIBITION CONSTRUCTIONS	POSTERS	STICKERS	FRAME SYSTEMS

ECO:

FROM RECYCLED MATERIALS	PVC-FREE	WATER-BASED COATINGS	REACH COMPLIANT	GRS – GLOBAL RECYCLED STANDARD	PHTHALATE-FREE	HEAVY METAL-FREE

PROPERTIES:
